INSTITUTIONAL DISTINCTIVENESS

1. Pongal Day Celebration

SCAD Group of Institutions celebrated function on 11.01.2020 in our college campus. We have prepared pongal in 2020 pots in grand manner for Tamizhar Thirunal and A.P.J.Abdul Kalam's dream of 2020. Mr.Arun Babu Managing Director, SCAD) presided over the function. All Principals, staff and the students of SCAD campus (SCAD CET, TTI, B.Ed., Special school, Polytechnic, ITI)prepared pongal in a separate pot with enjoiment. Pongal things are provided by the management to the students. Parents also visited in this function. Lot of memorable scenes like kolam, mavailai thoranam, traditional dresses wore by the students and staff.Traditional cultural events like Silampattam. Oyillattam, Puliattam, Mayilattam, Poikal Kuthirai and Thappattam also held in this function. All the staff and students were signed in Tamil for Record break give importance of our mother tongue. Journalist came to our college and took interview with the students and staff about this Pongal celebration 2020.Our college Pongal celebration was reached the place in Guinness Book.

2. Maxine Award

Maxine Award, sponsored by Dr. Eleanor O' Sullivan, MBBS, FCR, a leading Radiologist, Council Member of the British Medical Association in London, England and herself a recipient of the coveted "UK Gold Medal for Services to Medicine" is an exclusive opportunity that invites all **young women in SCAD Colleges** to explore their natural talents and sense of enterprise and creative skills of our students.Topic was given in 3 separate categories: **Art, Science and Business Enterprise** designed to encourage broad-based endeavour and excellence.

➤ Art – Community Corner

Firstly to choose a neglected corner to transform in 3 ways: with seating, decoration and planting. To create an inviting outdoor space with comfortable shared seating, shade, beautiful plants and a colourful, artistic backdrop such as painted walls, a mural, floor patterns, etc. Perhaps an information/message board, a cupboard of free books and children's toys to exchange, a decorated litter bin, some built-in form of children's puzzle or game..? To consult with the owner of the land as well as local residents/businesses for permission and approval of your ideas. To decide who is likely to use the new space (elderly people, children, young

families, shoppers, students?) to help you shape your vision. To keep a photographic record of all stages as well as research/planning/costing details to present to the Award Judges who may visit your site. To use locally available materials/ your own design ideas/ perhaps arrange some sponsorship from a local business/promote your plans to gain public support and volunteer help....? Finally, to arrange continued maintenance and care of the site for the future – how can this be ensured?

➤ **Business Enterprise – Women’s Empowerment**

To find out from your family and friends what seasonal domestic tasks are carried out by women. To consider ways of improving one of these annual tasks, making the work easier, quicker, more efficient and enjoyable, eg by establishing a job share, by organising a supportive event, by devising a community resource/purchase, by fund-raising for a specific item. To show the Award Judges your research, planning, costing and successful implementation of your idea.

➤ **Science – The Challenges of Plastic**

To devise an inventive approach to collecting, re-using or converting plastic items in local use. To cost your idea, draw up a clear business plan. To run a pilot test in your community and monitor the results; how can you engage people to help your vision of the future? To present your research, costings and findings to the Award Judges in clear and interesting visual form. Our students participated and received 1st prize in Arts and 2nd prize in Science.

3. Webinar
